Announcing our new Executive Director!

The Board of Directors of the Center for Innovation and Resources, Inc. (CIR) is pleased to announce that Sybil Halloran will be stepping into the role of Executive Director starting June 2016.

CIR has greatly benefited from the leadership of Rebecca Bevan over the past six years. As Executive Director, Rebecca has guided CIR through growth and transitions while continuously improving agency operations. We are happy that, following these years of hard work, Rebecca will be able to move into a part-time position as Fiscal Administrator, allowing her to focus more time on her family while continuing to support an agency she is passionate about.

Many of you already know Sybil from her work with CIR's Northern CATTA Center project. She completed her Master's Degree in Public Administration with a focus on Nonprofit Management last year, and is eager to take on this leadership role as CIR continues to meet the needs of the field. Sybil loves working for an agency that has a large-scale impact on the health and well-being of children and families and is grateful to be supported by the rest of CIR's talented team as she steps into her new duties.

We are grateful to have such dedicated, talented, and passionate staff throughout CIR and to be able to recruit for the Executive Director position from within. We would like to extend our utmost gratitude to Rebecca Bevan for her service as Executive Director, and are excited to have this chance for our staff to transition into positions that suit their interests, skills and priorities.

We are eager for all of our wonderful partners to have the opportunity to work with Sybil and the rest of CIR as we work to further our mission of applying research-based knowledge to address real-world problems in human services and education.

Sincerely,

Connie Silva-Broussard
President, Board of Directors
